

MaxP Compilation instructions

Download the totally of the files from this web direction into a local disk folder. It is suggested a short folder name without special characters. The list of files is MaxP.jar, FragAPares_12.cpp, ListADYDFSEnsam_2.cpp, EstructParesL.h, Estructuras12.h.

➔ Compiling C++ in Windows (64 bits) (MinGW64 C++ compiler is recommended)

```
>g++ FragAPares_12.cpp -o FragAPares.exe -std=c++11
```

```
>g++ ListAdyDFSEnsam_2.cpp -o ListAdyDFSEnsam_2.exe -std=c++11
```

Executing from Windows console: (Java 1.8.x runtime environment recommended)

```
>java -jar MaxP.jar
```

➔ Compiling C++ in Linux or MacOSX (64 bits) (GNU C++ compiler is recommended)

```
>g++ FragAPares_12.cpp -o FragAPares.exe -std=c++11
```

```
>g++ ListAdyDFSEnsam_2.cpp -o ListAdyDFSEnsam_2.exe -std=c++11
```

Executing from Linux console: (Java 1.8.x runtime environment recommended)

```
>java -jar MaxP.jar
```
